Date: Monday, January 08, 2018 9:03:05 AM

Good morning everyone.

The Pristine team has offered up a few days in early February to meet. The 5th and 6th are the best days for me. Are there any dates/times not good for you? Besides the five of us are there any other people we'd like to participate?

Tom

Tom,

Thank you for the offer to meet with the Pristine Trust to discuss a strategy to move the project forward. We agree that a face-to-face meeting with the Agency is an appropriate next step, and we look forward to a productive session. The same Pristine team that met with the Agency in August will attend this meeting - the Pristine Trustees (Peggy Dewan, Martha Farr, Ron Pitzer), our consultant (GHD - Julian Hayward), and the Pristine Trust chairperson (Betsy Dusold).

During the weeks you suggested for the meeting, the Pristine team is available on February 2, February 5, and February 6. Due to the complexities of this project, we would like to request that a two-hour meeting be scheduled. Regarding available meeting times, I understand the difficulties involved in coordinating calendars so any meeting time on those days will work for us. We can arrive in Chicago the day before the meeting so a morning meeting would be suitable.

What Agency members do you anticipate attending the meeting? Also, can you share the technical direction the Agency may be leaning at this time? The current position of the Agency would be helpful in our preparation. As we have previously noted, the Pristine project has been active for three decades and great strides have been made to remediate the site. This is a good time to evaluate the remediation strategy. We are very encouraged for the opportunity to work with the Agency to move this project in a logical, sound direction.

Ron

Tom,

Sounds like you are off to a busy start to the new year.

I will check with the other members of the Pristine team and get back to you with some potential meeting times in the last week of January and the early weeks of February. I appreciate your continued interest in developing a strategy to move this project forward.

Ron
